Heart of Maine Mobile Veterinary Services, LLC

is partnering with the Animal Control Officer in Howland to offer a rabies clinic **for residents of Howland and surrounding communities.**

For your pet's safety and the safety of others please have **all dogs leashed and all cats in carriers.** If your dog is sensitive, please arrive between 11am and 12pm, please let us know this at the time of arrival. We will make sure to have special accommodations for your pet.

Please be patient if we are running behind. Certain pets need extra time with handling – we appreciate your understanding in this matter. Rude or aggressive behavior will not be tolerated and for the safety of our staff will result in cancellation of your space in line.

Any Questions?

Call or Text: 207-717-7212 (Texting preferred)

Please reference the: **Howland October 2026 Rabies Clinic**, when calling or texting.

By participating in this Rabies Vaccination Clinic, I acknowledge and agree to and understand the following:

1. No Comprehensive Physical Examination:

I understand that this clinic is limited to administering rabies vaccinations only. A full physical examination of my pet is **not** being conducted. This clinic is not a substitute for regular veterinary care, including an annual wellness exam.

2. Pet Health Acknowledgment:

I certify that to the best of my knowledge, my pet is currently in good health, free of illness, and has not shown any signs of illness such as seizures, vomiting, diarrhea, coughing, lethargy, or loss of appetite in the past 7 days.

3. Vaccination Risks:

I understand that while adverse reactions to vaccines are rare, they can occur. I agree that I am seeking vaccination for my pet voluntarily and accept any risks associated with the administration of the vaccine.

4. Follow-Up Care:

I acknowledge that it is my responsibility to seek follow-up care with a full-service veterinary provider if my pet experiences any side effects, or if I have any health concerns regarding my pet following this vaccination.
